I Survived the Holiday Season—Survival of the fittest Apple-iCloud - Internet Hosted Providers

LMB Announcements

We would like to welcome all our customers to a new year. We are continuing to offer Service Call Packs. For our existing customers, it is economic relief for the current business climate we share and for new customers it's a "common sense" way to get affordable technical services. You can purchase hourly support Service Call Packs that are good for one year from the date of purchase. Call LMB Technology Services for more information on Service Call Pack pricing or any of our "common sense" technical services products LMB can offer you or your company.

I Survived the Holiday Season—Survival of the fittest

The holidays have come and gone quickly and once again we have survived . We have survived the lines at stores to monitoring Ebay auctions, clipping coupons, gift cards and paging through online reviews. We set out to get the best bang for our buck; from brick and mortar to online stores and when it was all said and done we achieved some great deals. Sears, Best Buy, Apple didn't seem to have their game on like Amazon, Walmart, EBay and new comers HHGregg, Ross, Fry's, TigerDirect and Micro Center. The biggest lessons learned this season were new warranty and gift card restrictions and noticeable differences related to customer service. I'm glad we survived and came away with some great deals. As the New Year gets underway LMB would like to remind everyone to make sure you ask a lot of questions and get as much information as you can regarding your technology needs and purchases. As usual we advocate price shopping for any technical product or service. LMB thanks you and wishes everyone a safe and Happy 2012.

Apple-iCloud-Internet Hosted Providers

We are receiving a lot of questions regarding Apple iCloud and Internet Hosted Providers from our customers. Remember to make sure you have the latest information from Apple by visiting them at <http://www.apple.com/icloud>. You will need to make sure you have the latest version of Apple OS software on your iPhone, iPad, iMac, and iPod, otherwise you will not be able to use their product. Our clients are giving us feedback on other Internet Hosted Services like Dropbox, SugarSync, Hotmail's online mesh sync, and Google's shared spaces from plus and online products. Please make sure you evaluate what your needs are before you begin your migration to any new product to make sure it's suitable to your needs and expectations, so call or email us with your questions.

If you have any questions or comments on these or other topics, please don't hesitate to contact us by phone, email, Facebook or Twitter.

Need new, recycled, recertified IT Equipment.
